Dear Texas Historical Commission,

I have had the pleasure of working with Debi Lamb and a great staff at Penguin Suits, Inc. Their ability to be highly creative, unique and on target with projects is excellent. Their quality and finished product was always outstanding.

The local television show created, written and produced by them, spot lighting Boerne and the hill country received a standing ovation by spectators. The show was diversified, entertaining and well produced. Debi is an energetic, positive and extremely capable individual. These assets are represented in her marketing business, by herself and her staff.

I would highly recommend Penguin Suits for your creative needs now and in the future. They possess a wealth of marketing experience and are a pleasure to work with.

Respectfully,

Linda Bird Solano
